

Station rehabilitation

Here's what we're doing:

To provide a safer, more comfortable trip, we're modernizing the Eastern Pkwy station. During the closure, we'll...

- Redesign the area around the station booth so it's easier to reach the trains
- Make major structural repairs to platforms, columns, and track area
- Rehabilitate stairs and railings between street and platform
- Renew the mezzanine and platform floors
- Replace platform edges and tactile warning strips
- Install new electrical work and vandal-resistant fluorescent lighting
- Repair walls, paint station and track area
- Install a new high-quality public address system

This work is part of MTA New York City Transit's ongoing effort to upgrade and maintain the subway system. We regret any inconvenience you may experience.

ALL TIMES

Brooklyn-bound trains skip Eastern Pkwy
